Aim

2 The aim is to provide a safe, efficient and cost-effective flying service to support the work of various departments and agencies of the Government, and to provide a 24-hour coverage of search and rescue as well as air ambulance services.

Brief Description

- **3** The Government Flying Service (GFS) operates two fixed-wing aircraft and seven helicopters providing a wide range of flying services. Its major tasks are to:
 - carry out search and rescue both over land and at sea;
 - conduct casualty evacuation;
 - support the Hong Kong Police Force and other disciplined services in carrying out their law enforcement duties and training for such duties;
 - assist in fighting fires and in responding to any other emergencies which constitute a threat to life or property;
 - carry out photography for aerial surveys;
 - · assist the medical services; and
 - carry such persons as the Secretary for Security may authorise as passengers.
 - 4 In 2004, the performance targets were generally achieved with some deviations separately explained below.
 - 5 The key performance measures are:

(a) The different types of casualty evacuation are denoted as follows:

Type A+ Casevac — casualty evacuation involving life-threatening cases.

Type A Casevac — casualty evacuation involving emergency medical conditions which are not lifethreatening.

- Type B Casevac casualty evacuation involving lesser emergency.

 (b) Island Zone includes Hong Kong Island, Cheung Chau, Hei Ling Chau, Lamma Island, Lantau Island, Peng Chau and Soko Islands.
- Or a later time specified by the tasking agent.

 The percentage within target has been revised from 95 in 2003 to 90 from 2004 onwards to provide a more realistic target in view of the revised arrangement for measuring performance in respect of simultaneous call-outs.

- (e) Delay was recorded in five out of the 19 cases mainly due to inclement weather, time taken to obtain more details about the operation and urgent aircraft repair.
- (f) A three-minute delay was recorded in one of the four cases because of the time taken to arrange for additional crew.
- (g) Only two cases fell into this category. Delay was recorded in one of the cases due to the time taken to obtain air traffic control clearance from the Mainland for the GFS aircraft to enter their waters.
- (h) Delay was recorded in six out of the 16 cases mainly due to the aircraft and crew being deployed for other more urgent tasks and the need for urgent aircraft repair.
- (i) Water bombing can only be carried out during hours of daylight.
- (j) Delay was recorded in 39 out of the 186 cases mainly due to simultaneous call-outs at different locations carried out by the same crew and urgent aircraft repair.
- (k) A two-minute delay was recorded in one of the three cases because of the time taken to transfer the groundcrew to Kai Tak first to support the subsequent refuelling of the helicopter in the fire fighting process.

Matters Requiring Special Attention in 2005-06

6 In 2005–06, GFS will continue to strengthen its capability to better serve the community and support the disciplined services in carrying out their law enforcement duties.

(or +13.9% on 2004–05 Original)

Analysis of Financial and Staffing Provision

Provision for 2005–06 is \$34.3 million (17.5%) higher than the revised estimate for 2004–05. This is mainly due to the increased cash flow requirements for new capital account items and procuring aircraft components, increased provision to cater for possible exchange rate fluctuations in relation to payments for aircraft components, partly offset by the full-year effect of the 2005 civil service pay cut and deletion of three posts.

Details of Expenditure by Subhead

The estimate of the amount required in 2005–06 for the salaries and expenses of the Government Flying Service is \$229,812,000. This represents an increase of \$34,333,000 over the revised estimate for 2004–05 and of \$30,068,000 over actual expenditure in 2003–04.

Operating Account

Recurrent

- **2** Provision of \$144,494,000 under *Subhead 000 Operational expenses* is for the salaries, allowances and other operating expenses of the Government Flying Service.
- 3 The establishment as at 31 March 2005 will be 228 permanent posts. It is expected that there will be a deletion of three permanent posts in 2005–06. Subject to certain conditions, the controlling officer may under delegated power create or delete non-directorate posts during 2005–06, but the notional annual mid-point salary value of all such posts must not exceed \$91,190,000.
 - 4 An analysis of the financial provision under Subhead 000 Operational expenses is as follows:

	2003–04 (Actual) (\$'000)	2004–05 (Original) (\$'000)	2004–05 (Revised) (\$'000)	2005–06 (Estimate) (\$'000)

5 Provision of \$1,260,000 under *Subhead 200 Insurance of aircraft* is for third party, passenger and crew liability insurance. The decrease of \$88,000 (6.5%) against the revised estimate for 2004–05 is due to the need to extend the old contract by one month to address the unexpected complications in the tender exercise for the new contract. As a result, the premium paid in 2004–05 would be higher than usual.

Capital Account

Plant, Equipment and Works

6 Provision of \$64,266,000 under *Subhead 631 Aircraft components, component overhaul and safety equipment (block vote)* is for acquiring and overhauling aircraft engines, components and avionics, as well as safety and rescue equipment. The increase of \$12,832,000 (24.9%) over the revised estimate for 2004–05 is mainly due to the increased requirement and the need to meet statutory requirement for aircraft components and safety equipment.
