#### Aim

**2** The aim is to administer land in Hong Kong by disposing of land; acquiring private land and clearing land required for the implementation of public works and other projects; managing government leases, unleased land and certain buildings held by the Administration; renewing and modifying leases; and maintaining man-made slopes on unallocated and unleased government land.

#### Brief Description

**3** The Lands Department is responsible for the disposal of government land. It acquires private land and clears land required for public works projects or other approved schemes. It is also responsible for managing government leases to ensure compliance with the lease conditions; managing government land to ensure that it is not illegally occupied; managing certain buildings or units in buildings held by the Administration; renewing government leases; modifying conditions in existing leases; and maintaining man-made slopes on unallocated and unleased government land.

**4** On 16 March 2007, the Government announced the new list of sites for the sale of government land under the Application List System. Forty seven sites (33 residential and 14 commercial/business) were offered. During the year, nine lots from the new list were triggered for sale by auction. Other land disposals such as those by private treaty, land exchange, lease modification, land extension and short-term tenancy proceeded along the established practice.

**5** In terms of land resumption, the total area resumed in 2007 was in response to requirements for land for public works and other projects. In terms of land management, in order to eliminate the breeding grounds of mosquitoes to prevent the spread of dengue fever and Japanese encephalitis, the Department also regularly cleaned up 704 sites under its management.

**6** The key performance measures in respect of land administration are:

### ***Matters Requiring Special Attention in 2008–09***

7 During 2008–09, the Department will:

- continue to strengthen land control and lease enforcement work;
- continue to explore measures to further streamline and expedite the processing of lease modifications, land exchanges and premium assessment, and set up a pilot Dedicated Team in District Lands Office/Hong Kong West & South in April 2008 to explore how to expedite the processing of lease modification and land exchange cases;
- continue land sales under the Application List System and co-ordinate the timetables for tendering property development projects with the Urban Renewal Authority and the railway corporation;
- continue to undertake preparatory work on resumption and clearance of land required for the North Lantau Highway Connection connecting Hong Kong - Zhuhai - Macao Bridge to the local transport network, the Central - Wanchai Bypass and Island Eastern Corridor Link, and the Wan Chai Development Phase II projects; and
- continue with the handling of residual compensation claims in respect of the completed railway projects and projects under construction whilst initiating work to provide land administration inputs for the proposed new railway projects, such as the Hong Kong section of the Guangzhou - Shenzhen - Hong Kong Express Rail Link, the West Island Line, the South Island Line and the Shatin to Central Link.

### ***Aim***

8 The aim is to formulate and implement survey and mapping policies, standards, regulations and specifications; provide and maintain the basic mapping, geodetic and land boundary databases; carry out geodetic, mapping and land boundary surveys; and administer the Land Survey Ordinance under the Land Survey Authority to cope with land and building developments in Hong Kong.

### ***Brief Description***

9 The Survey and Mapping Office (SMO) provides and maintains the 1:1 000 basic maps covering the whole territory. It also provides maps and plans at various scales and for various purposes. In particular, it provides survey and mapping services to the Lands Administration Office for land administration functions such as land acquisition and disposal, lease modification and enforcement, and small house development. It operates a Computerised Land Information System for maintaining updated digital maps and cadastral databases. Apart from government departments, private organisations and the public can purchase the data for their own uses under a permit or licence. It also provides photogrammetric and aerial survey services for specific purposes in addition to general mapping. It is responsible for

the establishment and maintenance of the territory-wide geodetic network. Under the Land Survey Authority, it administers the Land Survey Ordinance which governs the conduct, practices and standard of Authorised Land Surveyors in land boundary survey. It is also responsible for street naming under the Public Health and Municipal Services Ordinance.

**10** The SMO acquired ISO 14001 Environmental Management System certification accredited by the Hong Kong Quality Assurance Agency in November 2007.

**11** The key performance measures in respect of survey and mapping are as follows:

### **Matters Requiring Special Attention in 2008–09**

**12** During 2008–09, the Department will:

- continue to implement the Second Generation of Computerised Land Information System for maintaining the territory-wide digital map database;
- continue to implement the Data Alignment Measures project for improvement of the efficiency and effectiveness in data exchange among government departments;
- continue to develop the Digital Map and Land Record Data Dissemination System for efficient dissemination of digital maps and land record data;
- continue to provide survey and mapping services for the planning, land resumption and clearance, and land disposals in order to make land available for the construction of various new railway projects; and
- develop, enhance and expand the Hong Kong Special Administrative Region Geospatial Information Hub service to facilitate easy access to geospatial information by more government officers.

#### **Aim**

**13** The aim is to facilitate government land transactions by providing legal advice and conveyancing services to the departments and bureaux concerned, and to give consent to sales of units in uncompleted developments.

#### **Brief Description**

**14** The Legal Advisory and Conveyancing Office (LACO) provides professional legal services within the Department in relation to Programme (1) for the issue, renewal and variation of government leases as well as the drafting and execution of conditions of sale (by auction or tender), grant and exchange. In compulsory acquisition cases, the LACO is responsible for approving the legal title of the former owners and preparing the compensation documents before compensation is released. The LACO is also responsible for checking the legal title of the former owners and preparing the surrender documents before their land is surrendered to the Government in exchange for a new grant of land for development. It also provides conveyancing services to The Financial Secretary Incorporated, the Secretary for Home Affairs Incorporated and other government departments and policy bureaux in their property transactions.

**15** Under the Lands Department Consent Scheme, the LACO processes all applications for consent to sell units in uncompleted buildings prior to compliance with the lease conditions. The Scheme's main objective is to ensure that developers have the financial and technical ability to complete the units to be sold to protect the interests of purchasers. As one of the terms imposed under the land grants for commercial and residential developments, Deeds of Mutual Covenant (DMCs) setting out the respective rights and obligations of all the owners of the buildings need to be approved by the LACO before consent is issued or sales of the units can begin.

#### **Matters Requiring Special Attention in 2008–09**

**17** During 2008–09, the Department will continue to:

- expedite the approval of legal title of former owners and preparation of compensation documents in respect of private land resumed under various infrastructure projects;
- contract out to private firms the processing of applications for approval of DMCs, title checking and related legal work for payment of compensation for land resumption; and
- explore further ways to streamline the existing procedures in relation to Programme (1) so as to improve efficiency.

### **Analysis of Financial and Staffing Provision**

#### **Programme (1)**

Provision for 2008–09 is \$83.0 million (7.2%) higher than the revised estimate for 2007–08. This is mainly due to a net increase of 42 posts for strengthening support for maintenance of man-made slopes on unallocated and unleased government land as well as development of railway projects, setting up a pilot Dedicated Team in District Lands Office/Hong Kong West & South to explore how to expedite the processing of lease modification and land exchange cases and meeting other operational needs, salary increments for staff, filling of vacancies and increase in operating expenses.

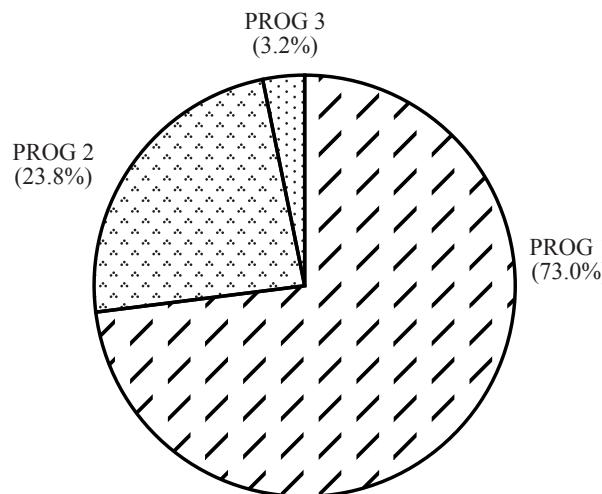

#### **Programme (2)**

Provision for 2008–09 is \$4.9 million (1.2%) higher than the revised estimate for 2007–08. This is mainly due to a net increase of two posts to meet operational needs, salary increments for staff and filling of vacancies, partly offset by the reduced requirement for replacement of minor plant and equipment.

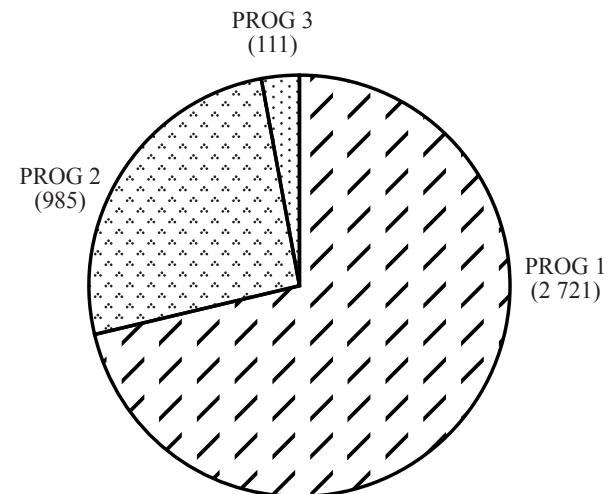

#### **Programme (3)**

Provision for 2008–09 is \$4.6 million (9.2%) higher than the revised estimate for 2007–08. This is mainly due to a net increase of one post to meet operational needs, salary increments for staff and filling of vacancies.

**5** Gross provision of \$31,890,000 under *Subhead 003 Recoverable salaries and allowances (General)* includes salaries and allowances for the urban renewal team to process land resumption to make land available for the urban renewal projects. The cost will be fully recovered from the Urban Renewal Authority.

**6** Provision of \$1,700,000 under *Subhead 221 Clearance of government land - ex-gratia allowances* is for allowances payable to persons cleared from government land other than in the course of clearances required for public works projects.

#### *Capital Account*

##### Plant, Equipment and Works

**7** Provision of \$1,721,000 under *Subhead 661 Minor plant, vehicles and equipment (block vote)* represents a decrease of \$2,749,000 (61.5%) against the revised estimate for 2007–08. This is mainly due to the reduced requirement for replacement of minor plant and equipment.
