Detail

2 Subsidised social welfare services are provided by the Government, by non-governmental organisations (NGOs) through government subventions, and to a lesser extent, by the subvented and private sectors through contract service. The cost figures for the government sector reflect the full cost of services rendered by the Social Welfare Department. In addition to the expenditure reflected in this head, the cost figures also cover the cost of fringe benefits or rent, which are charged to different expenditure heads, and other non-cash expenditure such as depreciation. On the other hand, the cost figures for the subvented and private sectors are the net total provision required after taking fee income into account. No direct comparison of costs between the two sectors should therefore be drawn.

3 The Lump Sum Grant (LSG) subvention, which has been implemented since 2001 and is now the mainstream subvention mode, allows NGOs to deploy subventions in a flexible manner so that services to be delivered can best meet changing community needs. In 2009–10, 164 NGOs are operating under the LSG. The Department continues to assess service units based on a set of well defined Service Quality Standards and Funding and Service Agreements specific to their individual service types. The present service performance assessment methods encourage service operators to take greater accountability for the performance of their service units, enable early detection and intervention of problem performance, and achieve cost-effectiveness in service performance monitoring. Separately, the Department continues to involve the private sector in the provision of subsidised residential care service for elders through the Enhanced Bought Place Scheme (EBPS) and bidding of purpose-built contract homes for the elderly, open to both NGOs and private operators.

Aim

24 The aim is to provide treatment for offenders through a social work approach, including supervision, counselling, academic, prevocational and social skill training, and help them re-integrate into the community and lead a law-abiding life.

Brief Description

25 The Department provides probation and aftercare services, operates remand home and residential training institution, and administers the Community Service Orders (CSO) Scheme, the Community Support Service Scheme (CSSS), the Post-Release Supervision of Prisoners Scheme and the Young Offender Assessment Panel (YOAP). The subvented sector provides counselling, group activities, residential services and employment assistance for ex-offenders.

26 In 2009, the Department:

- strengthened the provision of education and vocational training of Tuen Mun Children and Juvenile Home by introducing new training courses and additional training staff;
- conducted a comprehensive review on the two-year pilot project for provision of accommodation and employment assistance for needy discharged prisoners and turned it into regular subvention in 2009–10; and
- launched a two-year pilot project on enhanced probation service at two designated courts in October 2009 to assist young drug offenders under the age of 21 convicted of drug-related offences to rehabilitate through more focused, structured and intensive treatment programmes.
- 27 The key performance measures in respect of services for offenders are:

Demand for the services under this programme hinges on the number of prosecutions by the police and the type of sentence by the court. Demand must always be met in full because of the statutory nature of the services.^ Due to the re-location and co-location of the probation homes, reformatory school and remand homes/places

^A Due to the re-location and co-location of the probation homes, reformatory school and remand homes/places of refuge to a new residential training complex, namely the Tuen Mun Children and Juvenile Home, in 2007, the same unit cost is applicable to all cases under residential training.

Matters Requiring Special Attention in 2010–11

28 During 2010–11, the Department will continue to run the pilot project on enhanced probation service at the two designated courts, monitor the progress of the project and prepare for an evaluation to be conducted in 2011–12.

ANALYSIS OF FINANCIAL PROVISION

(or +1.4% on 2009–10 Original)

Analysis of Financial and Staffing Provision

Programme (1)

Provision for 2010-11 is \$77.3 million (4.5%) higher than the revised estimate for 2009-10. This is mainly due to the full-year effect of new projects implemented in 2009-10, partly offset by the full-year effect of the 2009 pay adjustment. In addition, there will be a net increase of 23 posts in 2010-11.

Programme (2)

Provision for 2010–11 is \$685.7 million (2.4%) lower than the revised estimate for 2009–10. This is mainly due to the additional one-off payments/allowances for CSSA and SSA recipients in 2009–10 and the full-year effect of the 2009 pay adjustment. In addition, there will be a net increase of 34 posts in 2010–11.

Programme (3)

Provision for 2010–11 is \$169.5 million (4.3%) higher than the revised estimate for 2009–10. This is mainly due to the additional provision for increasing the supply of subsidised day/residential care places and home care places, making full use of the space in existing subvented RCHEs to provide more LTC places, purchasing subsidised NH places from self-financing NHs/RCHEs as well as the full-year effect of new projects implemented in 2009–10, partly offset by the full-year effect of the 2009 pay adjustment. In addition, two posts will be created in 2010–11.

Programme (4)

Provision for 2010–11 is \$277.1 million (8.6%) higher than the revised estimate for 2009–10. This is mainly due to the additional provision for increasing the provision of day services, residential services and pre-school rehabilitation services, strengthening health care services for ageing residents in subvented residential care homes for the mentally handicapped, setting up four new counselling centres for psychotropic substance abusers as well as the full-year effect of new projects implemented in 2009–10, partly offset by the full-year effect of the 2009 pay adjustment. In addition, there will be an increase of 32 posts in 2010–11.

Programme (5)

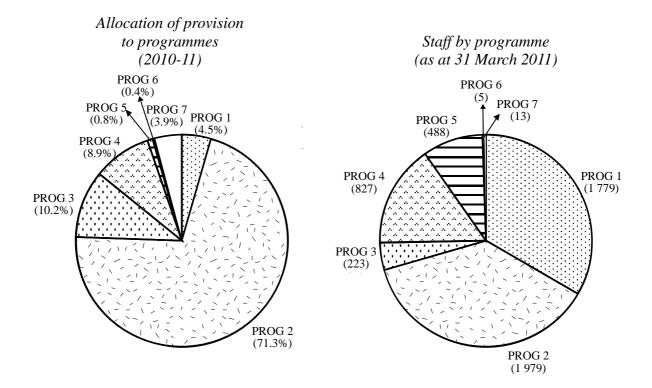

Provision for 2010–11 is \$2.7 million (0.9%) higher than the revised estimate for 2009–10. This is mainly due to the increased requirement for general departmental expenses, partly offset by the full-year effect of the 2009 pay adjustment.

Programme (6)

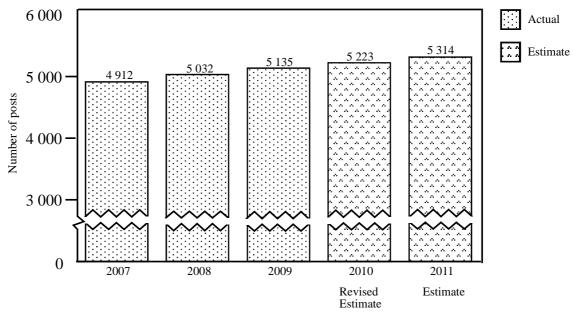

Provision for 2010–11 is \$3.3 million (2.2%) lower than the revised estimate for 2009–10. This is mainly due to the closure of a NLCDP team in late 2009–10 and the full-year effect of the 2009 pay adjustment.

Programme (7)

Provision for 2010–11 is \$3.5 million (0.2%) higher than the revised estimate for 2009–10. This is mainly due to the additional provision for enhancing the manpower provision of the service of outreaching social work teams and the new project to be implemented in 2010–11, partly offset by the full-year effect of the 2009 pay adjustment.

5 Gross provision of \$2,182,000 under *Subhead 003 Recoverable salaries and allowances (General)* is for the salaries and allowances of civil servants involved in support of the Sichuan earthquake reconstruction projects funded under the Trust Fund in Support of Reconstruction in the Sichuan Earthquake Stricken Areas. The gross provision must not be exceeded without the prior approval of the Secretary for Financial Services and the Treasury. Expenditure under this subhead is to be reimbursed by the Trust Fund.

6 Provision of \$141,000 under *Subhead 157 Assistance for patients and their families* is for payment to patients requiring medical care and assistance to their families pending provision of the Comprehensive Social Security Assistance (CSSA), or where CSSA is not applicable.

7 Provision of \$6,540,000 under *Subhead 176 Criminal and law enforcement injuries compensation* is to cover compensation payable to persons who are injured as a result of violent crimes and acts of law enforcement or to their dependants in cases of death. The level of compensation for criminal injuries is based on the payment schedule of the Emergency Relief Fund whereas the level of compensation for law enforcement injuries is assessed on the basis of common law damages.

8 Provision of \$1,000,000 under *Subhead 177 Emergency relief* is to cover expenditure arising from the provision of food and necessities to victims of natural and other disasters.

9 Provision of \$18,586,000,000 under *Subhead 179 Comprehensive social security assistance scheme* is for payment to persons who meet the criteria for CSSA.

10 Provision of \$8,876,000,000 under *Subhead 180 Social security allowance scheme* is for payment of Disability Allowance and Old Age Allowance to eligible persons.

11 Provision of \$29,949,000 under *Subhead 184 Traffic accident victims assistance scheme* is for government's contribution towards the Traffic Accident Victims Assistance Fund. It does not represent the actual payment for cases during the year. The annual provision is calculated at 25 per cent of the estimated amount of levies to be collected in the current financial year and it also takes into account necessary adjustments to government's contribution in respect of the collection of levies in the previous year. The decrease of \$43,557,000 (59.3%) against the revised estimate for 2009–10 is mainly due to an estimated decrease in the amount of levies to be collected in 2010–11.

12 Provision of \$7,066,000 under *Subhead 187 Agents' commission and expenses* is for payment of bank charges on autopay transactions. The increase of \$3,123,000 (79.2%) over the revised estimate for 2009–10 is mainly due to an estimated increase in the unit rate of charge and the number of autopay transactions.
