Detail

2 Subsidised social welfare services are provided by the Government, by non-governmental organisations (NGOs) through government subventions, and to a lesser extent, by the subvented and private sectors through contract service. The cost figures for the government sector reflect the full cost of services rendered by the Social Welfare Department. In addition to the expenditure reflected in this head, the cost figures also cover the cost of fringe benefits or rent, which are charged to different expenditure heads, and other non-cash expenditure such as depreciation. On the other hand, the cost figures for the subvented and private sectors are the net total provision required after taking fee income into account. No direct comparison of costs between the two sectors should therefore be drawn.

3 The Lump Sum Grant (LSG) subvention, which has been implemented since 2001 and is now the mainstream subvention mode, allows NGOs to deploy subventions in a flexible manner so that services to be delivered can best meet changing community needs. In 2010–11, 164 NGOs are operating under the LSG. The Department continues to assess service units based on a set of well defined Service Quality Standards and Funding and Service Agreements specific to their individual service types. The present service performance assessment methods encourage service operators to take greater accountability for the performance of their service units, enable early detection and intervention of problem performance, and achieve cost-effectiveness in service performance monitoring. Separately, the Department continues to involve the private sector in the provision of subsidised residential care service for elders through the Enhanced Bought Place Scheme (EBPS) and bidding of purpose-built contract homes for the elderly, open to both NGOs and private operators.

Aim

24 The aim is to provide treatment for offenders through a social work approach, including supervision, counselling, academic, prevocational and social skill training, and help them re-integrate into the community and lead a law-abiding life.

Brief Description

25 The Department provides probation and aftercare services, operates remand home and residential training institution, and administers the Community Service Orders (CSO) Scheme, the Community Support Service Scheme (CSSS), the Post-Release Supervision of Prisoners Scheme and the Young Offender Assessment Panel (YOAP). The subvented sector provides counselling, group activities, residential services and employment assistance for ex-offenders.

26 In 2010, the Department:

- strengthened the provision of catering services of Tuen Mun Children and Juvenile Home by increasing the varieties of nutritious food; and
- continued to implement the two-year pilot project on enhanced probation service at two designated courts to assist young drug offenders under the age of 21 convicted of drug-related offences to rehabilitate through more focused, structured and intensive treatment programmes.

Demand for services under this programme hinges on the number of prosecutions and the type of court sentence. Demand must always be met in full because of the statutory nature of the services.

^ Owing to the re-location and co-location of the probation homes, reformatory school and remand homes/places of refuge to a new residential training complex, namely the Tuen Mun Children and Juvenile Home, in 2007, the same unit cost is applicable to all cases under residential training.

Matters Requiring Special Attention in 2011–12

28 During 2011–12, the Department will continue to run the pilot project on enhanced probation service at the two designated courts, monitor the progress of the project and prepare for an evaluation.

Aim

29 The aim is to promote a sense of belonging in the community through social work services which encourage people to identify their social needs and mobilise community resources to solve their problems.

Brief Description

Neighbourhood Level Community Development Projects (NLCDPs) are provided by the subvented sector in areas qualified under the existing criteria.

31 Through the provision of outreaching support, casework and group work services, Care and Support Networking Team aims at assisting mainly the street sleepers, ex-mentally ill persons and ex-offenders to integrate into the community.

Analysis of Financial and Staffing Provision

Programme (1)

Provision for 2011–12 is \$107.6 million (6.2%) higher than the revised estimate for 2010–11. This is mainly due to the full-year effect of new projects implemented in 2010–11 and the additional provision for regularising the NSCCP and setting up of a new IFSC. In addition, there will be a net increase of 16 posts in 2011–12.

Programme (2)

Provision for 2011–12 is \$681.5 million (2.4%) higher than the revised estimate for 2010–11. This is mainly due to increased requirement for CSSA and SSA payments, partly offset by the additional one-off payments/allowances for CSSA and SSA recipients in 2010–11. In addition, there will be a net increase of four posts in 2011–12.

Programme (3)

Provision for 2011–12 is \$352.5 million (8.9%) higher than the revised estimate for 2010–11. This is mainly due to additional provision for increasing the supply of subsidised day/residential care places and home care places, making full use of the space in existing subvented RCHEs to provide more LTC places, strengthening the care for infirm/demented elders in RCHEs and day care centres/units for the elderly as well as the full-year effect of new projects implemented in 2010–11. In addition, there will be a net increase of five posts in 2011–12.

Programme (4)

Provision for 2011–12 is \$352.4 million (10.6%) higher than the revised estimate for 2010–11. This is mainly due to additional provision for increasing the provision of day services, residential services and pre-school rehabilitation services, strengthening the manpower of ICCMWs, on-site medical support at social clubs as well as the full-year effect of new projects implemented in 2010–11. In addition, there will be a net increase of 29 posts in 2011–12.

Programme (5)

Provision for 2011–12 is \$13.7 million (4.7%) higher than the revised estimate for 2010–11. This is mainly due to increased requirement for general departmental expenses.

Programme (6)

Provision for 2011–12 is the same as the revised estimate for 2010–11.

Programme (7)

Provision for 2011–12 is \$52.2 million (3.4%) higher than the revised estimate for 2010–11. This is mainly due to additional provision for enhancing the school social work service in secondary schools and the full-year effect of service enhancement implemented in 2010–11.
