# The revised estimate for 2023-24 is lower than the original estimate for 2023-24, mainly due to –

(a) change in funding requirement of various funding schemes/initiatives under the "Funding for promoting and facilitating the development of the financial services sector" in view of the less-than-expected demand; and

(b) decrease of \$132,400,000 (56.5%) in the funding requirement of the eMPF Platform Project, including the deferral of a payment milestone from 2024–25 to 2025–26 and a decrease in annual maintenance fee, both of which arose from the delay in system readiness.

which arose from the delay in system readiness.
The provision for 2024–25 is \$479,800,000 (105.6%) higher than the revised estimate for 2023–24. This is mainly due to the increased cash flow requirement of \$368,800,000 for the eMPF Platform in 2024–25 arising from the deferral of payment milestone from 2024–25 to 2025–26 and an increase in annual maintenance fee.

### Analysis of Financial and Staffing Provision

### Programme (1)

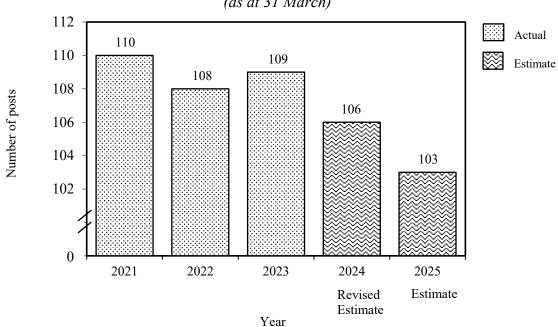

Provision for 2024–25 is \$479.8 million (105.6%) higher than the revised estimate for 2023–24. This is mainly due to the increased cash flow requirement of \$368,800,000 for the eMPF Platform in 2024–25 arising from the deferral of payment milestone from 2024–25 to 2025–26 and an increase in annual maintenance fee. There will be a decrease of three posts in 2024–25.

### Programme (2)

Provision for 2024–25 is \$15.8 million (49.8%) higher than the revised estimate for 2023–24. This is because additional funding is provided to the FSDC for supporting the operation of the Hong Kong Academy for Wealth Legacy and strengthening the FSDC's policy research and market promotion efforts.
